-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Rich et al. (5,187,809).

Regarding claim 12, Rich discloses a dual mode automatic gain control system showing a transmitter (178), a receiver (230), a gain stage (209), and an automatic gain control circuit (214) which includes an input port (210) and an output port (252), and a determining step 400 meets the comparator as claimed since it inherently includes a comparator.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 5, 6, 9, 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5, "the thermally compensated reference voltage circuit" lacks proper antecedent basis.

In claim 6, "the integrator" lacks proper antecedent basis.

In claim 9, "the thermally compensated reference voltage circuit" lacks proper antecedent basis.

In claim 16, "the thermally compensated reference voltage circuit" lacks proper antecedent basis.

***Allowable Subject Matter***

5. Claims 1-4, 7, 8, 10-11 are allowed.

6. Claims 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 5, 6, 9, 16 and 17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: Prior art does not teach the averager, the peak detector, and the output port as recited in claims 1, 7, and 13, the thermally compensated reference voltage circuit as recited in claims 14 and 16.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lee (4,371,842) shows a dual mode automatic gain control.

Birleson (6,725,463) shows an analog and digital television receiver.
